INVITATION, 17.11.2022, 4-7 PM, Naama Bay

We cordially invite you to our exclusive event around **Floating Energy Pyramids** and a proposal for COP28.

POWER ON PYRAMIDS
Win energy in a playful way!

On Thursday 17th, Nov., 4-7 PM, a glocal coalition for learning and doing innovations will present their COP27 outcomes on a co-creative construction site in Naama Bay:

- Youth4Planet International is featuring the global „Power-On Pyramids“ energy challenge with games, films and trainings for students
- Sharm College in cooperation with the French school Sharm El Sheikh present the results of their „floating pyramids workshops“ with Joy Lohmann (artist at the World Art Forum/Green Zone)
- The Makers-For-Humanity present their Open-Islands, open-source modular floating islands,
- and Sun Sharm Tours provides its beautiful space and their open heart.

Together, they have built floating pyramids, connected various impact-partners, trained energy detectives for an energy transformation campaign. In an unique art space built by the students the coalition will propose their vision for a glocal innovation hub in Sharm-El-Sheikh:

The **SHARM EL SHEIKH MULTIVERSITY** will become an attractive co-creation and co-learning location and maker-space around a Floating Pyramid. It will collect, train and showcase creative solutions around Water | Energy | Biodiversity | Food sparking innovation through cultures and the arts.

The Floating Pyramid is designed to attract open-minded partners, students and professors and the general public to inspiring cooperative actions and alliances for sustainable futures.

Likeminded partners are invited to jointly develop this vision of a glocal learning and sharing space on the beautiful waters of the Red Sea.

Let's together build a scalable learning accelerator to COP28 in Dubai. We take the 12 month race for better ESD education seriously!

If you are curious now, join our Pyramid Happening on Thursday, 4 PM.
